Independent Music

You will discover some great titles of a number of excellent Canadian artists by logging on to our website at: <http://www.backstageproductions.com/newpages/newartistslabel.html> and click on the CD graphic of your choice.

We control Publishing and Masters in most cases. Of particular note is our Reggae Catalogue. Many of the titles are songs that have been used in the top rated TV series "Da Kink In My Hair" which airs on Global Television. Our reggae catalogue is one of the most respected reggae catalogues in Canada. We also have some excellent Classical Music with The Symphony Orchestra of Canada and Elizabeth Spano as well as a great Classical Music Collection entitled The Classical Music Anthology. All of this music is available world-wide on the internet through our distribution partner, The Orchard, and sells very well around the world. In addition to the titles detailed on our site, we also have many other artists including The Moscow Boys Choir, the prestigious Japanese Pacific Music Catalogue (Master and Publishing) and a complete Jazz collection featuring artists like George Benson, Sonny Lester, and Buddy Rich to name a few.

We represent a number of composers who create music for films and stock music. One artist of particular note is Luciano Lombardi. You can check out a selection of over 250 titles on the following website: <http://www.lucianolombardi.ca/>. You can sort by selection using key words that suite the mood. Please note that we have a very good French Music catalogue, which we can also make available to you through our Paris office. Just let us know your musical requirements.

Broadcast Properties

Steve Thomson, the company's founder, has produced a number of Television projects including The Gathering Place starring Graham Kerr – The Former Galloping Gourmet, which consists of 130 episodes available in both 1 hour and ½ hour formats. We are always looking for sponsors who are interested in aligning with this production or accessing the content for Premium Offers. This series is content rich. We would be happy to send some more information on this highly acclaimed project upon request.

Thomson also produced the highly acclaimed Concert Special entitled “Let It Rock” with Jerry Lee Lewis, The Band, Carl Perkins, Jeff Healey, Larry Gowan and Ronnie Hawkins. This Award Winning concert also features the Award Winning Documentary entitled “Let It Rock at the Crossroads of Rock 'N' Roll” as a companion piece. The documentary received an endorsement from The Smithsonian Institution's Memphis Rock 'n' Soul Museum.

A more recent film project produced, written and directed by Thomson is “The Story of Lydia”, which won two industry Accolade Awards for Family/Children Programming and Voice over Talent. The company is planning a 26 episode spin-off to “The Story of Lydia” entitled “Lydia's School”. A Broadcast partner is in place and we are currently looking for appropriate sponsors before we undertake the production. You can read more about it and watch the Trailers at <http://www.thestoryoflydia.com>

Backstage Productions International is a very diverse company and considered a leading global entertainment company. Check us out on the web at <http://www.backstageproductions.com>
